

GAVRINIS 3

Designer

Pierre Paulin

Technical characteristics

A new version of the Gavrinis rug in the shape of an irregular pebble, following the contours of Pierre Paulin's sketches like topographical curves. The lines of the motif are achieved with subtle sculpting of the woollen tufts which are in two different heights, but the same colour. Rug in 100 % wool, hand tufted and sculpted using tufts of 2 different heights (10-11 mm and 14-15 mm) to sketch out the motifs using a single colour.
